2.2.2. Consolidated revenue

Consolidated revenue amounted to €267.1 million in the first half of 2025 compared to €267.9 million in the first half of 2024, representing a decrease of €0.9 million, or (0.3)% (+1.3% at constant currency), reflecting a strong comparison base in H1 2024.

This evolution reflects the Direct and Other Segment's continued contribution partly offset by the negative anticipated impact of Partnerships with the conversion of MeLi+ promo cohorts to Premium offers and a less favorable FX rate in Brazil.

³ H1 2024 data has been restated to offset the effect of the 0.5 million inactive Family account removal, on a like for like (LFL) basis

2.2.2.1. Revenue by segment

Direct revenue amounted to €173.6 million in the first half of 2025 compared to €171.5 million in the first half of 2024, representing an increase of €2.1 million, or 1.2% (1.9% at constant currency).

This revenue growth was driven by: (i) strong momentum in France with a quarter over quarter increase of the subscriber base to 3.6 million (+6.3% LFL at end of March and +8.2% LFL at end of June) reflecting Deezer' strategic focus on France, and (ii) a slight increase in RoW (up 0.5%) without new marketing investments.

Partnerships revenue amounted to €76.5 million in the first half of 2025 compared to €86.9 million in the first half of 2024, representing a decrease of (11.9)% (and (8.4)% at constant currency).

This evolution mainly reflected the conversions of MeLi+ promo cohorts to Premium offers, with better margins, partly offset by the progressive ramp up of the RTL+ partnership. ARPU stood at €3.1, up 3.7%, thanks to a better mix.

Other revenue, which is made up of advertising and ancillary revenue, amounted to €17.0 million in the first half of 2025 compared to €9.6 million in the first half of 2024, representing an increase of 77.0% (78.4% at constant currency).

This increase mainly reflected the good performance of the white labelling solutions for hardware / media partners.

2.2.2.2. Revenue by geography

In France, revenue amounted to €160.2 million in the first half of 2025 compared to €154.0 million in the first half of 2024, representing an increase of €6.2 million, or 4.0%.

This revenue increase mainly reflected the continued expansion of Deezer's Direct subscriber base (+8.2% on a like-for-like basis) and a good performance of Deezer's Family offers.

In the Rest of World, revenue amounted to €106.9 million in the first half of 2025 compared to €113.9 million in the first half of 2024, representing a decrease of €7.0 million, or (6.2)% ((2.4)% at constant currency).

This revenue decrease mainly reflected the conversions of MeLi+ promo cohorts to Premium offers, partly offset by the progressive ramp up of the RTL partnership, as well as a good performance of the white labelling solutions for hardware / media partners in Other Revenues (+99.7%).

2.2.2.3. Subscriber base

As of June 30, 2025, the Group's total subscriber base stood at 9.2 million, compared to 10.0 million on June 30, 2024 on a like-for-like basis, representing a decrease of (7.6)%. This change notably reflects a business decision to remove 0.5 million inactive Family subaccounts over the past 12 months, which had no impact on revenue. In the first half of 2025, the evolution of our subscriber base was primarily driven by the continued growth of the Direct subscriber base in France, as well as a return to slight growth in ROW subscribers, partly offset by a decline in the Partnerships subscriber base due to the conversion of MeLi+ promo cohorts to Premium offers.

In Direct, the Group's number of subscribers was 5.3 million as at June 30, 2025 compared to 5.1 million as at June 30, 2024 on a like-for-like basis representing an increase of 5.5%, and reflecting our strategy to focus our marketing investments on France and the stabilization of ROW subscribers.

In France, strong momentum with a quarter over quarter acceleration of the Direct subscriber base at 3.6 million (+6.3% on a like-for-like basis at the end of March and +8.2% on a like-for-like basis at the end of June).

In the Rest of World, the number of Direct subscribers slightly increased at 1.8 million at the end of June 2025 (+0.5% on a like-for-like basis), despite the group's strategy to focus on selected key markets.

In Partnerships, the Group's number of subscribers was 3.9 million as at June 30, 2025 compared to 4.9 million as at June 30, 2024, representing a decrease of (21.1)% on a like-for-like basis. This change mainly reflected the conversions of MeLi+ promo cohorts to Premium offers.

2.2.2.4. ARPU

The Group's ARPU stood at €4.4 in the first half of 2025 compared to €4.3 in the first half of 2024, representing an increase of 2.7% on a like-for-like basis.

This change reflected a better mix of offers within our Partnerships segment (ARPU +3.7%) partly offset by a less favorable mix of offers within our Direct segment (ARPU (1.8)% on a like-for-like basis).

2.2.2. Cost of revenue

The Cost of Revenue, which mainly includes costs related to licensing rights, costs related to hosting infrastructure servers, network bandwidth costs and commissions charged by sales platforms and payment service providers, amounted to €204.3 million in the first half of 2025 compared to €212.8 million in the first half of 2024, representing a decrease of €8.5 million. This change mainly reflected the optimization of some of the Group's aforementioned costs.

Deezer management uses adjusted Cost of Revenue as described in Section 2.1.4. "Reconciliation of non-IFRS financial indicators".

On an adjusted basis, the Cost of Revenue amounted to €201.5 million in the first half of 2025 compared to €203.4 million in the first half of 2024, representing a decrease of €1.9 million, or (0.9)%.

| In % of Direct revenue | 25.5% | 25.7% | (0.2)pt | | |
| o/w Partnerships | 15.1 | 19.2 | (21.1)% | | |
| In % of Partnerships revenue | 19.8% | 22.1% | (2.3)pt | | |
| o/w Other | 6.2 | 1.3 | +373.9% | | |

Adjusted gross profit amounted to €65.5 million in the first half of 2025 compared to €64.5 million in the first half of 2024, representing an increase of €1.0 million, or 1.5%.

This change mainly reflected a positive contribution from the white labelling solutions for hardware / media partners.

Gross profit amounted to €62.8 million in the first half of 2025 compared to €55.1 million in the first half of 2024, representing an increase of €7.7 million, or 13.9%.

This change mainly reflected a lower level of non-recurring charges included in adjusted items.

Adjusted items amounted to €2.7 million in the first half of 2025 compared to €9.4 million in the first half of 2024, representing a decrease of €6.7 million. 2.2.7. Adjusted EBITDA

Adjusted EBITDA amounted to €2.1 million in the first half of 2025 compared to €(5.0) million in the first half of 2024, representing an improvement of €7.1 million, achieving positive adjusted EBITDA in the first half of 2025 for the second consecutive time after the second half of 2024.

This change mainly reflected higher adjusted gross profit and strict management of our Marketing, Staff and G&A expenses.

Note 2. Basis of preparation

Unless otherwise indicated, financial data are presented in thousands of euros without decimal. The amounts shown in the consolidated statement of financial position, the consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows and the tables presented in the notes to the consolidated financial statements may not always correspond to the calculated sum of the respective items due to rounding differences.

The interim condensed consolidated financial statements have been prepared in accordance with IAS 34 "Interim Financial Reporting", a standard within the IFRS (International Financial Reporting Standards), as endorsed by the European Union, which provides for the presentation of selected explanatory notes. They do not include all the information required for complete annual financial statements and should be read in conjunction with the Group financial statements for the fiscal year ended December 31st, 2024.

They were approved by the Board of Directors on July 30th, 2025, after the completion of the limited review by the Company's statutory auditors.

The interim condensed consolidated financial statements are presented in thousands of euros.

On July 30th, 2025, the Board of Directors have reviewed the financial position of the Group, together with its forecast cash flows and financing facilities available and have a reasonable expectation that the Group has adequate resources to continue in operational existence for a minimum of 12 months following the preparation of these interim condensed consolidated financial statements. For this reason, the Group continues to adopt the going concern as a basis in preparing the financial statements.

(i) New and amended standards and interpretations adopted by the Group

At the end of the accounting period, there are no differences between the reference standards used and the standards adopted by the IASB, whose application is mandatory for the accounting period presented.

The main accounting standards and methods applied in the half-year financial statements are similar to those applied by the Group in the consolidated financial statements at December 31st, 2024, with the exception of the standards, amendments and interpretations adopted by the European Union, applicable from January 1st, 2025, and described below:

- Amendments to IAS 7 and IFRS 7: "Supplier Finance Arrangements"
- Amendments to IAS 1:
 - o "Classification of Liabilities as Current or Non-current Date";
 - "Classification of Liabilities as Current or Non-current Deferral of Effective Date";
 - "Non-current Liabilities with Covenants"
- Amendments to IFRS 16: "Lease Liability in a Sale and Leaseback".

These standards do not have a material impact on the Group's half-year consolidated financial statements as of June 30th, 2025.

(ii) New standards and interpretations issued not yet effective

Newly published IFRS standards, amendments and interpretations published with mandatory application for accounting periods beginning after January 1st, 2025, and not early adopted by the Group, which may have an impact on its consolidated financial statements are as follows:

- Amendments to IAS 21 "The Effects of Changes in Foreign Exchange Rates: Lack of Exchangeability";
- Amendments to IFRS 9 and IFRS 7 "Classification and Measurement of Financial Instruments" (*);
- Amendments to IFRS 1, IFRS 7, IFRS 9, IFRS 10 and IAS 7 arising from "Annual Improvements Volume 11" (*);
- Amendments to IFRS 9 and IFRS 7: "Contracts Referencing Naturedependent Electricity" (*):
- IFRS 18 Presentation and Disclosure in Financial Statements (*);
- IFRS 19 Subsidiaries without Public Accountability: Disclosures (*).

(*) Standard not yet adopted by the European Union.

Note 3. Critical accounting estimates and judgments

(a) Use of estimates and judgment

The preparation of consolidated financial statements requires management to make judgments and estimates and apply assumptions that can affect the carrying amounts of assets, liabilities, income and expenses, as well as the information presented in the accompanying notes. Actual reported values may differ from the accounting estimates made.

Except as noted below, in preparing these interim condensed consolidated financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation and uncertainty were the same as those applied to the consolidated financial statements for the year ended December 31st, 2024.

(b) Specific disclosure requirements for interim condensed consolidated financial statements

(i) Seasonality of operations

Company's operations are not subject to material seasonal fluctuations.

(ii) Income tax

Income tax is recognized in the consolidated financial statements for each interim period. The amount corresponds to a best estimate calculated by applying the expected weighted average tax rate for the entire year.

Income tax expense is recognized based on management's estimate of the weighted average effective annual income tax rate expected for the full financial year. For both six-month periods ended June 30th, 2024 and 2025, the effective tax rate estimated by management was nil.

Note 4. Changes in scope of consolidation

On February 7th, Deezer S.A sold Driift holding's shares to All Things Considered Services Ltd free from encumbrances and third party claims with full title guarantee (price: 1£ per share, £132.780).

All Things Considered Services Ltd purchased from Deezer S.A the sale shares together with all rights and benefits attached or accruing to them as at completion.

Note 5. Segment information

Segment financial information is presented in accordance with IFRS 8 - Operating Segments and is based solely on the internal reporting ("Adjusted EBITDA" and "Adjusted Gross Profit") used by the Board of Directors — considered to be the Company's chief operating decision maker within the meaning of IFRS 8 — to make decisions about resources to be allocated to the segments and assess their performances.

These segments reflect the basis on which management analyses the business.

The Group has identified three operating segments:

- Direct: Subscriptions to the Deezer service are taken out directly by users;
- Partnerships: Subscriptions to the Deezer service are taken out through a distribution partner
 or are included in the service or product sold by a distribution partner (as a bundle);
- Other: This segment includes Advertising and Ancillary revenue.

The Group monitors its operations through the use of non-generally accepted accounting principles ("non-GAAP") financial measures: adjusted Cost of Revenue and Gross Profit. These non-GAAP financial measures provide useful and relevant information regarding the Group's operating results and enhance the overall ability to assess its financial performance. They provide comparable measures which facilitate management's ability to identify operational trends, as well as make decisions regarding future spending, resource allocations and other operational decisions. These financial measures may not be comparable to other similarly titled measures of other companies and are not intended to be substitutes for measures of financial performance as prepared in accordance with International Financial Reporting Standards ("IFRS").

Revenue, Cost of revenue and Gross Profit by segment are detailed below with a reconciliation between adjusted data and consolidated accounts.

|---------------------|---------|------|

| Income tax expense | (1,203) | 760 |

The tax charge mainly comprises the withholding tax on the payment of invoices from Brazil.

Note 9. Loss per share

Basic loss per share is computed using the weighted-average number of outstanding ordinary shares during the period. Diluted loss per share is computed using the treasury stock method to the extent that the effect is dilutive by using the weighted-average number of outstanding ordinary shares and potential ordinary shares during the period.

The Group's potential ordinary shares consist of incremental shares issuable upon the assumed exercise of stock options and warrants, and the incremental shares issuable upon the assumed vesting of free shares, excluding all anti-dilutive ordinary shares outstanding during the period.

The Group used the if-converted method to calculate the dilutive impact of the warrants and adjusted the numerator for changes in profit or loss.

As a result of the above, the computation of loss per share for the respective periods is as follows:

| | Six month ended June 3 | |
|---|------------------------|-------------|
| (in € thousands, except share and per share data) | 2025 | 2024 |
| Basic loss per share | | |
| Net loss attributable to owners of the parent | (7 556) | (19 268) |
| Shares used in computation: | | |
| Weighted-average shares outstanding | 123 613 344 | 121 637 681 |
| Basic net loss per share attributable to owners of the parent | (0,06) | (0,16) |
| Diluted loss per share | | |
| Net loss attributable to owners of the parent | (7 556) | (19 268) |
| Shares used in computation: | | |
| Weighted-average shares outstanding | 123 613 344 | 121 637 681 |

| Diluted net loss per share attributable to owners of the parent | (0,06) | (0,16) |

Potential dilutive securities that were not included in the diluted per share calculations because they would be anti-dilutive were as follows:

| | 2025 | 2024 |
|---------------|------------|------------|
| Free shares | 4,536,647 | 4,283,620 |

Concomitantly to the initial public offering (the "IPO"), I2PO S.A. issued A BSARs and B BSARs, with the B BSARs listed in the professional segment of the regulated market of Euronext Paris. These BSARs entitle their holders to subscribe new ordinary shares of the Company as from the completion date of the merger, i.e. July 5, 2022, and they expire five years after this date.

As the BSARs can be converted into a variable number of new ordinary shares, they are accounted for as derivatives at fair value through profit or loss, i.e. measured based on their quoted price as at June 30, 2024 (\in 0,0005).

Contingencies

Various legal actions, proceedings, and claims are pending or may be instituted or asserted against the Group. These may include but are not limited to matters arising out of alleged infringement of intellectual property; alleged violations of consumer regulations; employment-related matters; and disputes arising out of supplier and other contractual relationships.

As a general matter, the music and other content made available on the Group's service are licensed to the Group by various third parties. Many of these licenses allow rights holders to audit the Group's royalty payments, and any such audit could result in disputes over whether the Group has paid the proper royalties. If such a dispute were to occur, the Group could be required to pay additional royalties, and the amounts involved could be material. The Group expenses legal fees as incurred.

The Group records a provision for contingent losses when it is both probable that a liability has been incurred and the amount of the loss can be reasonably estimated. An unfavorable outcome to any legal matter, if material, could have an adverse effect on the Group's operations or its financial position, liquidity, or results of operations.

Note 28. Events after the reporting period

On July 1st, Deezer renewed its lease for its Corporate headquarter located rue de Calais for an additional 6 years.

IV. Statutory auditors' report on the interim condensed consolidated financial statements

For the period from January 1 to June 30, 2025

Statutory auditors' review report on the interim financial information

To the Shareholders.

In compliance with the assignment entrusted to us by your Articles of Association and your Annual General Meeting and in accordance with the requirements of Article L. 451-1-2 III of the French Monetary and Financial Code (Code Monétaire et Financier), we hereby report to you on:

- the review of the accompanying condensed Interim consolidated financial statements of Deezer, for the period from January 1 to June 30, 2025,
- the verification of the information presented in the half-yearly management report.

These condensed interim consolidated financial statements are the responsibility of the Board of Directors. Our role is to express a conclusion on these financial statements based on our review.

1. Conclusion on the financial statements

We conducted our review in accordance with professional standards applicable in France. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with professional standards applicable in France and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the condensed half-yearly consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34 – standard of the IFRSs as adopted by the European Union applicable to interim financial information.

2. Specific verification

We have also verified the information presented in the half-yearly management report on the condensed interim consolidated financial statements subject to our review.

We have no matters to report as to its fair presentation and consistency with the condensed interim consolidated financial statements.
